Dear Judge Gerber,

This is my second letter to you, which you probably will not acknowledge. For an 87 year old woman, this is a costly experience.

For over a year I've been bombarded with pages in many, many brochures from Garden City Group Inc in Dublin, Ohio. Two came yesterday - two last week - it's harassment being reminded constantly of my loss to Gen. Motors. (7108. w)

Whether the government loaned money to Gen. Motors, it was taxpayer money (me) so it seems illegal, and certainly unethical to keep my common shares without some re-inbursement. I've heard they will honor the preferred stocks. Seems so unfair, since my income is very limited.

My hands are tied - only you can help.

Thanks for any attention to  
this matter

Very sincerely

Katherine Cole
